Cellica Database is an application that runs on the desktop and the smartphone -Use the Internet to access databases. 1. Field of the Invention The present invention relates to an electrolyte solution composition suitable for batteries having high energy density and high voltage, such as, a lithium secondary battery, a lead storage battery and a

nickel-cadmium battery, a secondary battery using this electrolyte solution, and a method of manufacturing the same. 2. Discussion of the Background In recent years, with the development of high performance portable electronic appliances, such as, cellular phones, camcorders, notebook personal computers, and personal digital assistants (PDA) have been developed. Consequently, there is a growing demand for a small-size secondary battery having high energy density, high voltage and good cycle characteristics. In order to meet the demand, a positive electrode active material that has a lithium transition metal composite oxide containing lithium and manganese, which is capable of occluding and releasing lithium ions, for example, has been investigated. As for a negative electrode material, an alloy of aluminum and silicon is generally used, but it has a problem in that the capacity is low. Therefore, a lithium metal, a lithium alloy, a lithium ion alloy or the like has been studied to provide high capacity. On Boers: They are And They're Not - gatsby ===== snitko I tend to agree. These guys were born in the UK, most likely have Dutch ancestry and are simply yuppies trying to move out to Africa to escape their yuppie-ish lifestyle. It's not like they're really South-Africans, they just want to be rich so they can sit in their comfy office and order their vegetarian 'chicken' and 'pizza' from the server. ----- gatsby For those who want to know where it came from, ~~~ gatsby See the edit history for the usage of _"they're"_ ----- g 3e33713323
